

## **DATA PROTECTION DECLARATION**

### **1) Foreword About MIATSIR**

Combining competencies is our strength. Service providers\* with Armenian inspirational background are listed with us.

#### **Our Motivation**

You certainly know the feeling when you are looking for a company contact and hope that someone will make a good recommendation. The right recommendation can be worth its weight in gold. Service providers in particular should know each other best. We make sure that you get to know each other so that you can benefit from each other. We think that right contacts are important. Join and enjoy the benefits of an Armenian service provider community!

#### **Our Goal**

We try to unite all service providers who have an Armenian connection on one platform. The aim of the merger should be to quickly find a point of contact when looking for a service, for end customers as well as for service providers among themselves. In many cases, one thinks far too winding and does not see the forest for the trees. One knows the person - but does not think that he is the right contact person. Or one does not even know that the person works in the professional field that one is looking for. MIATSIR should not only connect familiar faces with each other, but also link the service providers with each other and offer end customers a quick way to find a service provider.

#### **Our Service**

The list of service providers on this platform is carried out by the MIATSIR-team and is free of charge. The entry can be cancelled at any time upon request. There is no binding commitment or fee. This site is operated for non-profit purposes; hence it may take some time to process each individual content (update data, etc.). We wish you a successful exchange of skills as well as business interaction in a positive sense. The MIATSIR-team heartily thanks everyone who would like to be part of this initiative.
